Objective

A passionate Innovative Computer Science Engineering graduate specializing in AI & ML, full-stack development, and intelligent system design, driven to build impactful, real-world applications that solve meaningful problems and enhance user experiences.

Education

Vasantdada Patil Pratishthan's College of Engineering and Visual Arts <i>Bachelor of Engineering in Computer Science & Engineering (AI & ML)</i> • Status: Currently admitted as a Direct Second Year student (2025).	2025 – 2028 Mumbai, Maharashtra
Shri Bhagubhai Mafatlal Polytechnic (SVKM) <i>Diploma in Computer Science Engineering — GPA: 9.06</i>	Completed May 2025 Mumbai, Maharashtra

Experience

Mazagon Dock Shipbuilders Ltd. <i>Web Development Intern</i> • Developed responsive web modules using HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL. • Built and maintained internal dashboards and employee data management workflows. • Contributed to AR/VR-based ship visualization modules for training purposes.	May 2024 – June 2024 [CERTIFICATE] Mumbai, Maharashtra
--	---

Projects

Personal AI Assistant <i>Python, Flask, Gemini API</i> • Built a voice-enabled AI assistant with speech recognition, NLP, and real-time task execution.
AI PDF Chatbot (RAG-based) <i>Next.js, FastAPI, LangChain, LangGraph, Supabase</i> • Developed an AI-powered PDF chatbot using RAG architecture for intelligent document understanding and semantic search. • Integrated LangChain, LangGraph, vector embeddings, and Gemini/OpenAI models for context-aware responses.
Cryptocurrency Price Prediction Platform <i>Flask, React, XGBoost, Python</i> • Built a full-stack ML platform for cryptocurrency price prediction using historical market data.
MindVerse – Mental Wellness Companion <i>Flutter, Firebase, Flask, TensorFlow</i> • Built an AI-powered wellness app featuring mood tracking, emotion recognition, and voice chat modules.
Multimodal Deepfake Trust Engine <i>Python, Flask, TensorFlow, OpenCV</i> • Developed an AI system to detect deepfake manipulations in images, audio, and videos using EfficientNetV2 and Wav2Vec2. • Built a trust engine generating real-time authenticity scores and artifact analysis.

Achievements & Certifications

The Invasion: Hack the Ghost <i>GDG VIT Mumbai & GDG-UMIT</i> • Secured 1st Runner-Up among 968+ teams with “Trust Engine”, a multimodal AI deepfake detection system.	2026 [CERTIFICATE] Mumbai, Maharashtra
Microsoft Certified: Azure Data Fundamentals (DP-900) <i>Microsoft Azure Certification</i> • Achieved Microsoft DP-900 certification with a score of 981/1000 .	2026 [CERTIFICATE] Global
Smart India Hackathon (SIH) 2025 <i>Internal Hackathon</i> • Cleared the Internal Hackathon round with Team SunG1e for AI-based agriculture solution “Fasal Rakshak AI”.	2025 [CERTIFICATE] India
Odoo & Adani University Hackathon <i>Adani University</i> • Reached the on-campus finale and secured a position among the Top 7 teams .	2025–2026 [CERTIFICATE] Ahmedabad, Gujarat
Deloitte Australia – Data Analytics Job Simulation <i>Forage Virtual Experience</i> • Built Tableau dashboards and performed data analysis for business insights.	2025 [CERTIFICATE]

Technical Skills

Languages: Python, JavaScript, C++, Dart, SQL

Frameworks & Tools: React.js, Flask, Node.js, Express.js, Flutter, Firebase

Machine Learning: TensorFlow, Scikit-learn, XGBoost, Pandas, NumPy

Databases: MySQL, MongoDB, PostgreSQL

Developer Tools: Git, GitHub, Docker, Postman, VS Code

Core CS: DSA, OOP, DBMS, Computer Networks, SDLC
